

5 Day ISO 22301:2019 Lead Auditor Course

Course description:

This BCMS Lead Auditor Training Course help delegates fully understand and implement effective Business Continuity Management System practices. This certified course has been designed alongside industry experts and ensure the development of the right skills, knowledge and expertise to excel as a business continuity management system professional. Employers highly value professionals that invest in their own learning and development. Gain the most relevant up-to-date knowledge and skills that will improve your career prospects and make you more employable.

The course includes assessment and evaluation of BCMS to conform to the requirements of ISO 22301:2019 and ISO 19011:2018.

This course entitles you to 40 CPE credits.

BCMS auditors require detailed understanding of the ISO 22301 standard, so that they can verify effective implementation of BCMS. Intention of this course is to enable participants to ensure effective audit of the BCMS, the intention of which is to enable the company to effectively respond to any business disruption event. A certificate of successful completion of the course will be issued to those participants who satisfactorily complete the continuous assessment and written examination. However, participants who do not qualify either in continuous assessment or the written examination will be given certificate of attendance only.

Learning Objectives:

On completion, successful students will have the knowledge and skills to: Knowledge

- Describe the purpose of a business continuity management system, of business continuity management systems standards, of management system audit and of third-party certification.
- Explain the role of an auditor to plan, conduct, report and follow up a business continuity management system audit in accordance with ISO 19011 (and ISO 17021 where appropriate).

Skills

- Plan, conduct, report and follow up an audit of a business continuity management system to establish conformity (or otherwise) with ISO 22301 and in accordance with ISO 19011 (and ISO 17021 where appropriate).

Who should attend the course?

- Those wishing to understand/audit/ validate implementation of a formal ISMS in accordance with ISO/IEC 22301: 2019.
- Existing security auditors who wish to enhance their auditing skills.
- Consultants who wish to provide advice on ISO/IEC 22301: 2019 systems certification.
