

CONTINUITY & RESILIENCE

PMP Instructor-led Training

Are you starting out on your journey to the PMP® exam and don't know where to start? If so, then this live stream will take away your frustration. It maps out your journey to becoming a PMP in 10 easy-to-follow steps. It is your proven plan for becoming a certified project manager. It will begin with a bang by revealing the Key to Success for the exam to you.

Invest just of your time and take a major leap forward in your studies!

Our expert instructors will cover:

- Lesson 1: Business Environment
- Lesson 2: Start the Project
- Lesson 3: Plan the Project
- Lesson 4: Lead the Project Team
- Lesson 5: Support Project Team Performance
- Lesson 6: Close the Project/Phase

Benefits -

- Project management training helps you be a more valuable contributor to your company, make more money, and receive recognition within your organization through potential job promotions.
- You will be able to develop accurate project schedules to help you meet timelines, track resources, anticipate risks, deliver projects on time, and keep projects within budget.
- Project management training and PMI® certification will help you successfully manage teams across organizational and global boundaries.
- You will be able to determine the correct number and type of resources for your project to ensure its success, saving you time and costly mistakes.
- Project management training helps develop team-building skills. You'll work more smoothly and achieve a higher level of commitment with your team members — even team members who don't report to you.
- You'll learn how to confidently develop project success criteria and methods to clearly demonstrate a project's success.
- You'll discover how to use resources more efficiently, improve stakeholder communications and multitask in a more efficient manner.
- Project management training and PMI® certification will help you and your team communicate more effectively, resulting in less downtime and smoother workflow.
